

Illinois and United States Falling Behind

We need high speed Internet for our homes, schools, hospitals, and the workplaces of the future. But countries like Canada, France and South Korea have better, faster Internet connections. People in Japan can download an entire movie in just two minutes — it can take two hours or more in the United States — but they pay the same as we do in the U.S. for their Internet connection.

Not only do they have higher speeds, but a larger percentage of people in those countries have access to high speed connections. The United States is 15th behind other industrialized nations in high speed Internet adoption.

Illinois Speed Test Results

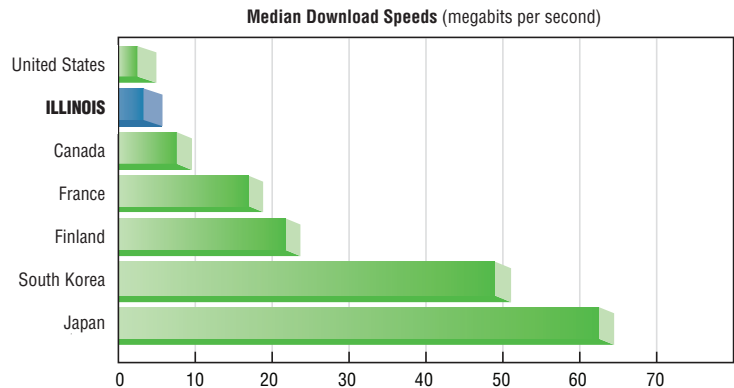

Over the last year, people who live in Illinois have gone to the speedmatters.org site to take an Internet speed test and measure how fast their computers can upload and download data. The results of the speed test show that the Internet speeds of people who live in Illinois, like those of the entire country, lag behind.

Illinois Internet Speed Test

World Ranking		Median Download Speed (megabits per second)
1	Japan	63.60
2	South Korea	49.50
3	Finland	21.70
4	France	17.60
8	Canada	7.60
15	United States	2.35
ILLINOIS		2.52

International data from the Information Technology and Innovation Foundation. U.S. data from speedmatters.org test results. Most test participants had DSL or cable modem connections.

Illinois Quick Stats

The median upload speed in Illinois is 485 kbps.

Average download speed by zip code for Illinois. There were no tests in unshaded areas.
