

CWA/ AT&T Mobility National Bargained Benefit Bargaining

Report #10 May 3, 2016

The CWA Bargaining Committee met via phone conference this week along with the CWA Research Department in assessing the latest company numbers for contribution costs. As we reported previously, AT&T has moved our way on items that make the healthcare insurance more affordable for more of our members; but AT&T has not offered anything that CWA considers fair for our members in Puerto Rico: members who do not have access to the fully insured AT&T healthcare plan. We continue to be available for the Company bargainers.

In Solidarity,

The CWA 2016 Mobility NBBP Bargaining Committee
